## DEPARTMENT OF THE ARMY SUPPLY MANUAL

### *Organizational Maintenance Allowances*

### *and Field and Depot Maintenance Stockage Guide*

*for*

## CHEST SET H-18/GT

Department of the Army, Washington 25, D. C.,

22 January 1957

1. A copy of SIG 1 and DA Pam 310-21 should be available to every user of the Signal portion of the Army supply manual.

a. SIG 1 explains the purpose and use of the Signal portion of the Army supply manual.

b. DA Pam 310-21 contains alphabetical and numerical indexes of available manuals in the Signal portion of the Army supply manual.

2. Items marked X under expendability note are expendable within the meaning of AR 735-4; nonexpendable items are marked NX.

3. The following manuals are also required for complete maintenance allowance data of the equipment covered herein:

- SIG 7 & 8 H-17/GT
- SIG 7 & 8 T-51

4. The Federal stock number column lists the 11-digit Federal stock number assigned by the Cataloging Division, OASD (S&L). The Federal stock number will be used for requisitioning purposes.

5. SIG 7 & 8 H-18/GT comprises two parts as follows:

a. *Maintenance Items.* A list of parts for repair and supply facilities.

b. *Basic Issue Items.* A list of component parts showing the quantities of each that comprise a complete operating equipment, including running spares, that is, those spare parts shipped concurrently with the equipment, and accessories. A dagger in the subassembly column indicates the item is a subassembly item for which the supply manual prepared to cover the specific component is required for a complete breakdown of the initial issue item.

6. Comments relative to technical data discrepancies in this manual should be forwarded to—

CO, Signal Equipment Support Agency  
 Fort Monmouth, N. J.  
 ATTN: SIGFM/ES-PMA.

\*This manual supersedes DA Supply Manual SIG 7 & 8 H-18/GT, 24 August 1954.
