RT-212/TPS-1D + RT-212A/TPS-1D portions s/s by TM 11-5840-245-12P, 14 Sept 60

1. A copy of SIG 1 and DA Pam 310-21 should be available to every user of any part of the Signal portion of the Army supply manual.

a. SIG 1 explains the purpose and use of the Signal portion of the Army supply manual.

b. DA Pam 310-21 contains alphabetical and numerical indexes of available manuals in the Signal portion of the Army supply manual.

2. Items marked X under expendability note are expendable within the meaning of AR 735-4; nonexpendable items are marked NX.

3. The following Department of the Army supply manuals are also required for complete maintenance allowance data of the equipment covered herein:

- SIG 7 & 8 PP-674/TPS-1D
- SIG 7 & 8 MD-144/TPS-1D
- SIG 7 & 8 CM-36/TPS-1D
- SIG 7 & 8 TS-1002/TPS-1
- SIG 7 & 8 TS-172/UP

4. A percent symbol indicates the item is authorized for use in the category of maintenance indicated and may be requisitioned when required. Not authorized for stockage.

5. A dagger in the designation by model column indicates the models in which the part is used and further, by its position, designates

the reference symbol in which the item is identified and/or the quantity used in each model where the quantity varies.

6. The consumption rates given for tubes are conservative theoretical estimates, and are provided for use only where no better information, such as data based on operating experience, is available. These figures are based on levels and requirements for equipment actually in use, not on authorizations or equipment stored in depots.

7. Technical literature is available by requisition from:

Commanding Officer
U. S. Navy Supply Depot
Bayonne, N. J.

8. The Federal Stock number column lists the 11-digit Federal stock number. In the absence of a Federal stock number, the Signal Corps stock number will be used for requisitioning purposes.

9. SIG 7 & 8 AN/TPS-1D comprises three parts as follows:

a. *Stock Number List.* A list of all stock numbers in the maintenance items portion arranged in stock number sequence and cross-referenced to page numbers to facilitate compliance with the provisions of SB 11-190.

*This manual supersedes DA Supply Manual SIG 7 & 8 AN/TPS-1D, 24 February 1958.

Copy 1

b. Maintenance Items. A list of parts for repair and supply facilities, arranged as shown in Contents, paragraph 11.

c. Basic Issue Items. A list of component parts showing the quantities of each that comprise a complete operating equipment, including running spares, that is, those spare parts shipped concurrently with the equipment, and accessories. A dagger in the "SUBASSEMBLY" column indicates the item is a component for which a separate list is included herein or is a subassembly item for which the Department of the Army Supply Manual prepared to cover the specific component is required for a complete breakdown of the initial issue item.

10. The contents of this manual is as follows:
